EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The title of the application is replaced with the following:

--Device and Method for Displaying Images According to Wireless Reception Degree--

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art teaches displaying rooms of various sizes, as discussed in the record. The prior art additionally teaches displaying device icons sized according to a degree of reception associated with the device, as discussed in the record. However, the prior art, either alone or in combination, does not consider displaying rooms sized according to the degree of reception associated with one or more devices contained in the rooms, as claimed. The examiner has determined that combining the above teachings of the prior art to yield the claimed subject matter would constitute improper hindsight reasoning.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2427

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
